## WORKERS NAMED

By River Improvement Convention Executive Committee.

## OVER A HUNDRED ON RECEPTION

COMMITTEE-THE OTHER COM-MITTERS ARE ON ENTERTAIN-MENT, FINANCE AND BANQUET INVITATION-ADVICES FROM THE RIVER CITIES POINT TO A LARGELY ATTENDED MEETING. CHAMBER OF COMMERCE MEM-BERSHIP BOOM.

Last evening at the home of Mr. B. Walker Peterson, at Woodsdale, east of the city, there was a special meeting of the executive committee of the chamber of commerce in charge of the work of arranging for the annual convention of the Ohio Valley Improvement Association. The meeting was presided over by Chairman Hullihen Quarrier, and the other members present were Messrs. B. W. Peterson, Joseph C. Brady, Howard

M. Feterson, Joseph C. Brany, Howard Hazlett and J. D. Culbertson, together with W. C. Beans, chairman of the en-tertainment committee.

The principal work accomplished last evening was the naming of the several sub-committees that will have direct charge of the arrs "gements for the con-vention next month. The result was the vention next month. The result was the announcement of the following commit-

The committee informally discussed the work that lies before it and the sub-committees, and the sentiment was unanimous that the business people are unanimous that the business people are taking hold of the affair with an enthu-siasm that cannot fall to make the Wheelling river improvement convention the most enjoyable in its short and ex-ceedingly brilliant and successful career. ceedingly brilliant and successful career. It is already apparent that the convention is going to be as good a membership boomer as could be desired; business men not members of the chamber who desire to be "in" in the coming convention good times are seeing the advantages of membership in the chamber as they have not seen them before. So, directly and indirectly, the chamber of commerce will benefit through taking under its auspices the river improvement gathering.

under its auspices the river improvement gathering.

The committee has received information from a number of river cities and towns, between Pittsburgh and Cairo, which indicate that the Wheeling convention is to be one of large attendance, and representative as well as large. The larger delegations will come from Pittsburgh, Cincinnati and Louisville.

The sub-committees will at once enter upon their work. The entertainment committee will probably meet before the close of the present week. All committee meetings will be held at the chamber of commerce.

## IN THE OIL FIELDS.

Throughout the entire South, during the past week, not a discovery of any importance was made in either old o new territory. Operators are watchful of new work and there is an increasing inquiry for developments in localities that are likely to open producing terri-tory. The demand for leases is better than at any time for more than two

Southwest of the Whiskey Run pool

Southwest of the Whiskey Run pool, in Ritchie county, three new wells were completed, two dusters and one producer. The latter is the South Penn Oil Company's No. 3, Barnes, and is making 350 barrels a day. The same company owns one of the completed dusters located on the Hayhurst farm, and the Associated Producers got the other on the B. Bumgardner farm.

Late developments to the west and southwest of the Hendershot pool led to the conclusion that the end of the producing territory has been reached.

The well completed on the Nowery farm, south of Mul'phystown, falled to reveal the 'oil producing formation. At the location south of the Jackson Ridge development, in Monroe county, Galey Bros. & Company have a duster on the Doughetty farm that very clearly indicates that there is no extension to the Keener and territory in that direction. The test well owned by Galey Bros. located on the Doughetty farm, south of the Jackson Ridge development, in Monroe county, has been drailed through the sand and is a duster. This was practically a wildcat and coming in dry gives a black eye to that territory. A number of Pittaburghers were interested in territory in that locality and will receive this information with a degree of dis-

ritory in that locality and will receiv this information with a degree of dis

this information with a degree of disappointment.
Southwest of the Whisky Run pool in Ricchie county, the South Penn Oil Company's No. 3, on the Namon Barnes farm, drilled in a few days and, is still making 350 barrels a day, as shown by the gauge yesterday mornins.

In the Centerville district, Tyler county, the South Penn Oil Company has drilled in its No. 3 on the Leroy Pierpont farm and has a good show for a well. This development is due for a producer, the last two wells completed came in dusters.

Murphysiown, Moore county, the South Penn Oif Company has drilled list test well on the E. S. Nowery farm through the sand and has a duster. This is the third dry hole completed in that locality within the past two weeks and gives the Impression that the end of the pool has been reached in that direction.

In the deep sand territory on Campbell's Run the South Penn has drilled in No. 2, James Fox, and has a twenty-batrel producer.

There has been a rumor current for a few days to the effect that a big well had been drilled in near the Wetzel county line adjoining Marshall counts, Careful inquiry failed to discover its ownership or exact location. It is reported to be a mystery and good for anywhere between 1,550 and 3,000 barrels a day. The superintendent of the Eureka pipe line stated that he had not heard of it and thought if such a well had been drilled in there would have been a request for a pipe line before this.

### ISSUED A CHALLENGE.

Knights of St. George Would Compete with Knights of Pythias—Nothing De-finite Until After Indianapolia Encamp-

The Knights of St. George have issued a challenge to any of the local companies of the Uniform Rank, K. of P., to contest with them in a competi-tive prize drill, at a contemplated joint picnic at the state fair grounds in Septamber. The Knights of St. have communicated with the Pythian organizations relative to the competitive drill, and the latter organization has the matter under consideration.

The Uniform Rank, K. of P., is prohiblted from engaging in a prize drill with any other organization for a purse, by a law of the organization, and fact, the respective companies cannot compete with each other except at the supreme encampment, which is held blennially and then only for a prize hung up by the city in which the en-

The Knights of St. George proposed that the drill be given for a purse of \$500. The competition was to be a fea-ture of a picnic, under the joint auspices of the Catholic and the Pythian uniformed bodies. There are companies of the Uniform Rank, K. of P. in this city: Couer de Leon No. 1; Print fills city; Colar to Bedin S. J.

Bernard Shanley No. 21, and James T.

McGhee No. 29. The latter company has appointed a committee to confer with the other companies and proposes that the best men be picked from the three Pythian companies to compete against; the best men from the Knights of St. George and Knights of St. John, or that the three Pythian companies and the two Catholic organisations engage in the drill, the best company or organization to be decided the winner; but the drill must be merely to decide superiority and not for a prize.

However, to make the contest worth winning a prominent member of the Knights of Pythias last night stated that he is willing to make a side bet that the Pythian organization is the best drilled in the city. Should the drill be arranged he says he is willing to make the wager with any admirer of the Knights of St. George or Knights of St. John.

James T. McGee company has taken Bernard Shanley No. 21, and James T.

the Knights of St. George of Knights of St. John.

James T. McGee company has taken the initiative, and its committee will shortly confer with the other Uniformed Rank companies. Nothing definite will be done until after the Indianapolis encampment, which begins next Monday.

### THE PYTHIAN BALL GAME

Was Played Yesterday Afternoon, Couer de Leon Wins,

The much talked of base ball game between Couer de Leon company No. 1 and Bernard Shanley company No. 21, Uniform Rank, K. of P., took place at the Island ball park yesterday after-noon, and considering the fact that the contest had been postponed four times owing to rain, the attendance was very Of course both companies were well represented by "rooters" and the game was kept merry and lively by the excitement on the part of the specta

It will be remembered that Bernard Shanley company defeated the James T. McGee company several weeks ago, and to win the championship of the first battalion of the first battalion of the first bettalion of the first regiment, they were called upon to wipe the earth up with Couer de Leon company's nine, but they failed and "thereby hangs a tale."

Captain Haller, of No. 1, consented, and "Willie". Windsor was signed as catcher and "Billy" Graham put in the right garden, where the "grass grows green sil around." Then when Captain Haller began counting his chickens in Number One's nine he found his star player, Corporal Crawford, was missing; also Ted Conluft, but he filled in with Fred, Weisgerber and Schultz, of Couer de Leon, in their stead. Then Umpire Isanc Shields doffed his "cop" uniform and yelled "play ball," and the game was on.

The teams lined up in the following

order:
Couer de Leon—Haller, c; Cunningham, p; Richardson, 1b; Falck, 3b; Lobenstein, ss; West, 3b; Schenk, 1f; Weisgerber, cf; Schults, rf.

The game was a good one and free from kicks. The pitchers did weil and were well supported by the catchers, Haller's work behind the bat was worthy of the highest praise. His catch of two foul tips at a time when much depended upon good playing, won applicuse from everybody in the audience. The score by innings was as follows:

### THE RAILROADS.

The excursion business on the rail-roads in and out of Wheeling this season has been larger than for several years, possibly not ever before so large. The Atlantic City and Mackinso excursions have been very popular, the Sunhave been remarkably large, and Wheeling's delegations to meetings and conventions held in various parts of the country have surpassed expectations.

The Cleveland, Lorain & Wheeling road will have two excursions within the next five days: On Thursday the second excursion to Mackinac will be run and personally conducted by Traveling Passenger Agent O. R. Wood, of this city, who was moved to arrange for the coming excursion, through the many words of praise that followed the sate Builders' Exchange trip to Mackinac, which was also under Mr. Wood's supervision throughout. The Cleveland, Lorain & Wheeling company has heeded the complaint of Wheeling business people that the railroads have been discriminating against this city in runding aft their excursions out of town and none in. This road, however, has already run one largely patronized Sumday excursion here from Cleveland, and next Sunday another will be run, with two trains, one starting from Cleveland and the other from Massilion. The Massilion excursionists will arrive here at 10 a. m. and the Cleveland train comes in gat noon.

Passenger Agent J. G. Tombinson, of the Pan Handie road, has his hands full these days with more excursion business than ordinarily comes to one man. Next Sunday he has what he says will be the largest excursion ever run out of this city—the Knights, of Pythlas special train to the Indianapolis encampment of the Uniform Rank, which will leave at 8 a. m. and be rushed through to the Indiana metropolis without stops, arriving at 5 p. m. The rate is \$8,60 for the round trip. Many will take this trip who are not Knights, the rate being open to the public.

Mr. Tomlinson is also arranging for the special train on the Pan Handie that will convey Wheeling's deferations to the Grand Army encampment at Cincinnati. The excursion is on September 5; the train will leave Wheeling at 7 a. m. and arrive at the Queen City at 3 p. m. Holidday and Stephens posts of the G. A. R. have made the Pan Handie their official route to Cincinnati.

Next Thursday the Pan Handie will run a popular price excursion to Pittsburgh convention. The train leaves at 6:30 a. m., and there will be a specials returning, The Cleveland, Lorain & Wheeling road will have two excursions within the next five days On Thursday the

To MEET AT PITTSBURGH.

The freight agents along the lines of the Pennsylvania road in the important cities will meet in a conference of their road officials at Pittsburgh this week, when they will take up the proposition of using book typewriters in the making up of their bills. It is said they can do just as good work, even better, than that which is done. They can take with the typewriter some twelve or fifteen copies of the same thing, and the work is much more easily done. Some few of two first have been doing this sort of work, but it is not general. Some have doubted the advisability of the scheme.

CUT RATES FOR RAILROADERS. A number of employes of the Pennsylvania lines in this city left last night for Steubenville, where they will take advantage of the railway men's excursion to Newark this morning. A special programme will be rendered at the Newark park for the men, and a jolly good time is assured them. The fare for the round trip from Pittsburgh will be 15 cents. The trains will leave Pittsburgh at 3 a. m. and Steubenville at 5 a. m., central standard time.

Marshall County Town.

Albert Polley returned or Sunday to Chickemanga, after visiting friends here last week. Since he has donned a soldier's unaform, Albert Polley lms made an enviable record as a crack shot, and he has defeated every other member of the First West Virginia, besides lowering the colors of marksmen from other regiments who tried triggers with him. For his marksmanship Captain White, of Company B, of which Albert is a member, presented him with a medal. Had the regiment been ordered to the front, Private Polley would have been mustered with the sharpshoters. It is an encouraging sign that the dividend of one and one-half per cent recently declared by the Wheeling Steel Works is the first time a dividend has been declared since 1891. The improvement to the plant about five years ago cost considerable money. Judging by the steady run of the milt this year, prospects are good for continued prosperity.
